

Oxyfresh Soy Candles

Healthy, long lasting and good for your home.

Behind the flame of every petroleum candle is a dark problem: burning paraffin creates toxic soot deposits in your home environment. Now consumers are choosing a new wax alternative!

Soy Wax is a new innovation in the candle world, and Oxyfresh has created a line of 100 percent organic soy candles that are better for you and better for the environment, not to mention an added Angel Food scent that will make your house smell great.

Discover the benefits of soy candles:

Little or no soot

Paraffin candle soot can stain walls, draperies, furniture, and everything else in your home. Soy candles burn virtually soot free!

Strong scents

Just one Oxyfresh Soy Candle will fill your home with its scent.

Easy clean up

Oxyfresh Soy Candles are water-soluble. Spills can be easily cleaned with soap and water.

Burns cleaner

Oxyfresh Soy Candles emit less airborne particles and harmful contaminants. Regular paraffin candles contain 11 toxins, including two carcinogens.

Burns up to 50 percent longer

Oxyfresh Soy Candles burn at a much cooler and slower rate than paraffin wax. You get more candle for your money!

100 percent biodegradable

Oxyfresh Soy Candles have cotton wicks and do not include lead or other toxic metal cores like other candles.

Isn't it time you discovered the benefits of Soy? Try Oxyfresh Soy Candles today.

Soy Candles are available in 4-ounce (stock #2101) and 16-ounce (stock #2100)

SOY CANDLES

"I start each morning by lighting my Angel Food Soy Candle. It gives my house a great smell for the rest of the day. And Soy Candles don't leave a sooty residue on walls and ceilings like other candles do."
